THANISHKA YOGESH

Full Stack & Web Developer · B.E. Computer Science · Sri Sairam Engineering College, Chennai
+91 90256 58705 | thanishka.ykb@gmail.com | LinkedIn | Portfolio | GitHub

Second-year B.E. Computer Science and Engineering undergraduate with an **8.60 CGPA**, focused on **full-stack and web development**. Experienced in building and deploying responsive web applications across frontend, backend and database layers using **React, JavaScript, Node.js and Python**, with hands-on experience through internships, hackathons and independent projects.

EDUCATION

Bachelor of Engineering - Computer Science and Engineering · Sri Sairam Engineering College, Chennai

Aug 2025 – Expected Aug 2029 | *CGPA : 8.60*

TECHNICAL SKILLS

Languages: Python · Java · C · JavaScript · SQL
Web: HTML · CSS · React.js · Node.js · Express.js
Backend & Database: FastAPI · MySQL · Supabase · REST APIs
Tools: Git · GitHub · Vercel · VS Code · Figma

PROJECTS

PAIMANA-AI - Infrastructure Risk Intelligence Platform

2026 · AI-Powered Project Monitoring & Risk Prediction

– Built a predictive intelligence platform to identify **cost, schedule & execution risks** across infrastructure projects, enabling proactive intervention
– Developed **risk scoring, portfolio analytics, alerts & AI-driven insights**, with SHAP-based explainability for key prediction factors
– Implemented an interactive dashboard with **risk trends, What-If simulation & RAG-assisted insights**

Stack: React · Vite · FastAPI · Python · Scikit-learn · SHAP · Pandas | paimana-ai-tau.vercel.app

Silent Voices Seen - Accessibility & Communication Platform

2026 · Full-Stack Web Application · Team Lead

– **Led the development and team integration** of an accessibility platform supporting speech, text & sign-language communication
– Developed **text-to-sign, voice-to-sign & sign-to-text** workflows with camera-based sign recognition and fingerspelling
– Built responsive, user-focused interfaces with real-time interaction capabilities

Stack: React · Next.js · Node.js · Computer Vision · Speech Recognition · Vercel | silent-voice-seen.vercel.app

CongestiQ-AI - AI-Powered Urban Traffic Intelligence | 2nd Prize · Code Carnival 2K26, SIMATS Engineering

2026 · 8-Hour Hackathon · Team Lead

– Led development of a predictive traffic intelligence system combining **traffic, weather, incident & safety data** to identify emerging congestion risks
– Engineered an explainable **Low / Medium / High risk engine** with reasoning behind predictions
– Developed a live MVP with **traffic dashboards, signal timing recommendations & route suggestions**
– Led ideation, development, integration and final presentation, securing **2nd Prize**

Stack: React · TypeScript · Vite · Tailwind CSS · Vercel · Custom Rule Engine | congestiq-ai.vercel.app

EXPERIENCE & CERTIFICATIONS

Full-Stack Web Development Intern · **Prodigy InfoTech**
– Built full-stack web applications using HTML/CSS, JavaScript, and Node.js

Software Development Intern · **Oasis Infobyte**
– Developed and styled web interfaces using modern front-end frameworks

AI & App Development Intern · **CodeAlpha**
– Enhanced AI algorithms using ML techniques; contributed to open-source AI projects

Student Coordinator & Event Organizer · **Sri Sairam Engineering College**
– Coordinated **INTELLECT HACK 2026, Design Sprint, Innovate to Impact, Portfolio Workshop & GEN-A-THON**, managing registrations, communication, promotions and execution.

CERTIFICATIONS: IBM: 1M1B: Think Beyond · **Cisco:** Introduction to Modern AI · **Skillsoft:** Python Concurrent Programming · **Forage:** Tata GenAI Powered Data Analytics Job Simulation
